

August 2007

Dear Holy Trinity Ripon;

Thank you so much that you will have a special service to pray for us.

Sasha, Larisa and Ksuschia are doing fine. The little girl is very lively and happy. I spoke with the Pastor Sacha and this are his prayer requests:

- that the members of the church will spiritually grow
- the leader can be found to support the work in the church
- the people become a heart to serve in the church
- wisdom for the pastor, in order how to lead the church
- it is planed to start an English club in September, that it will be successful and many people get in contact with the church
- we plan to start a new homegroup in September, that people will attend full hearted and that it will be a place for them where they can grow.

There is land around the church which we rented for the next 40 or so years. Now since the construction work is exploding in Bishkek, there is the danger that the government will take away this land and a huge building could be put in front of the church. In order to prevent this we need to buy this land. Negations with the government and finances are needed. Please pray that everything will go smoothly.

Thanks again for your support and your prayers, which we highly appreciate.

With love in Christ

Heini Schranz
